

**EXPLANATION**

- 500
  - Well used for control
  - Number indicates thickness of sand containing fresh to slightly saline water, in feet
- 
- 900 —
  - Line showing approximate thickness of sand containing fresh to slightly saline water (less than 3,000 ppm dissolved solids), in feet
  - Interval, 100 feet

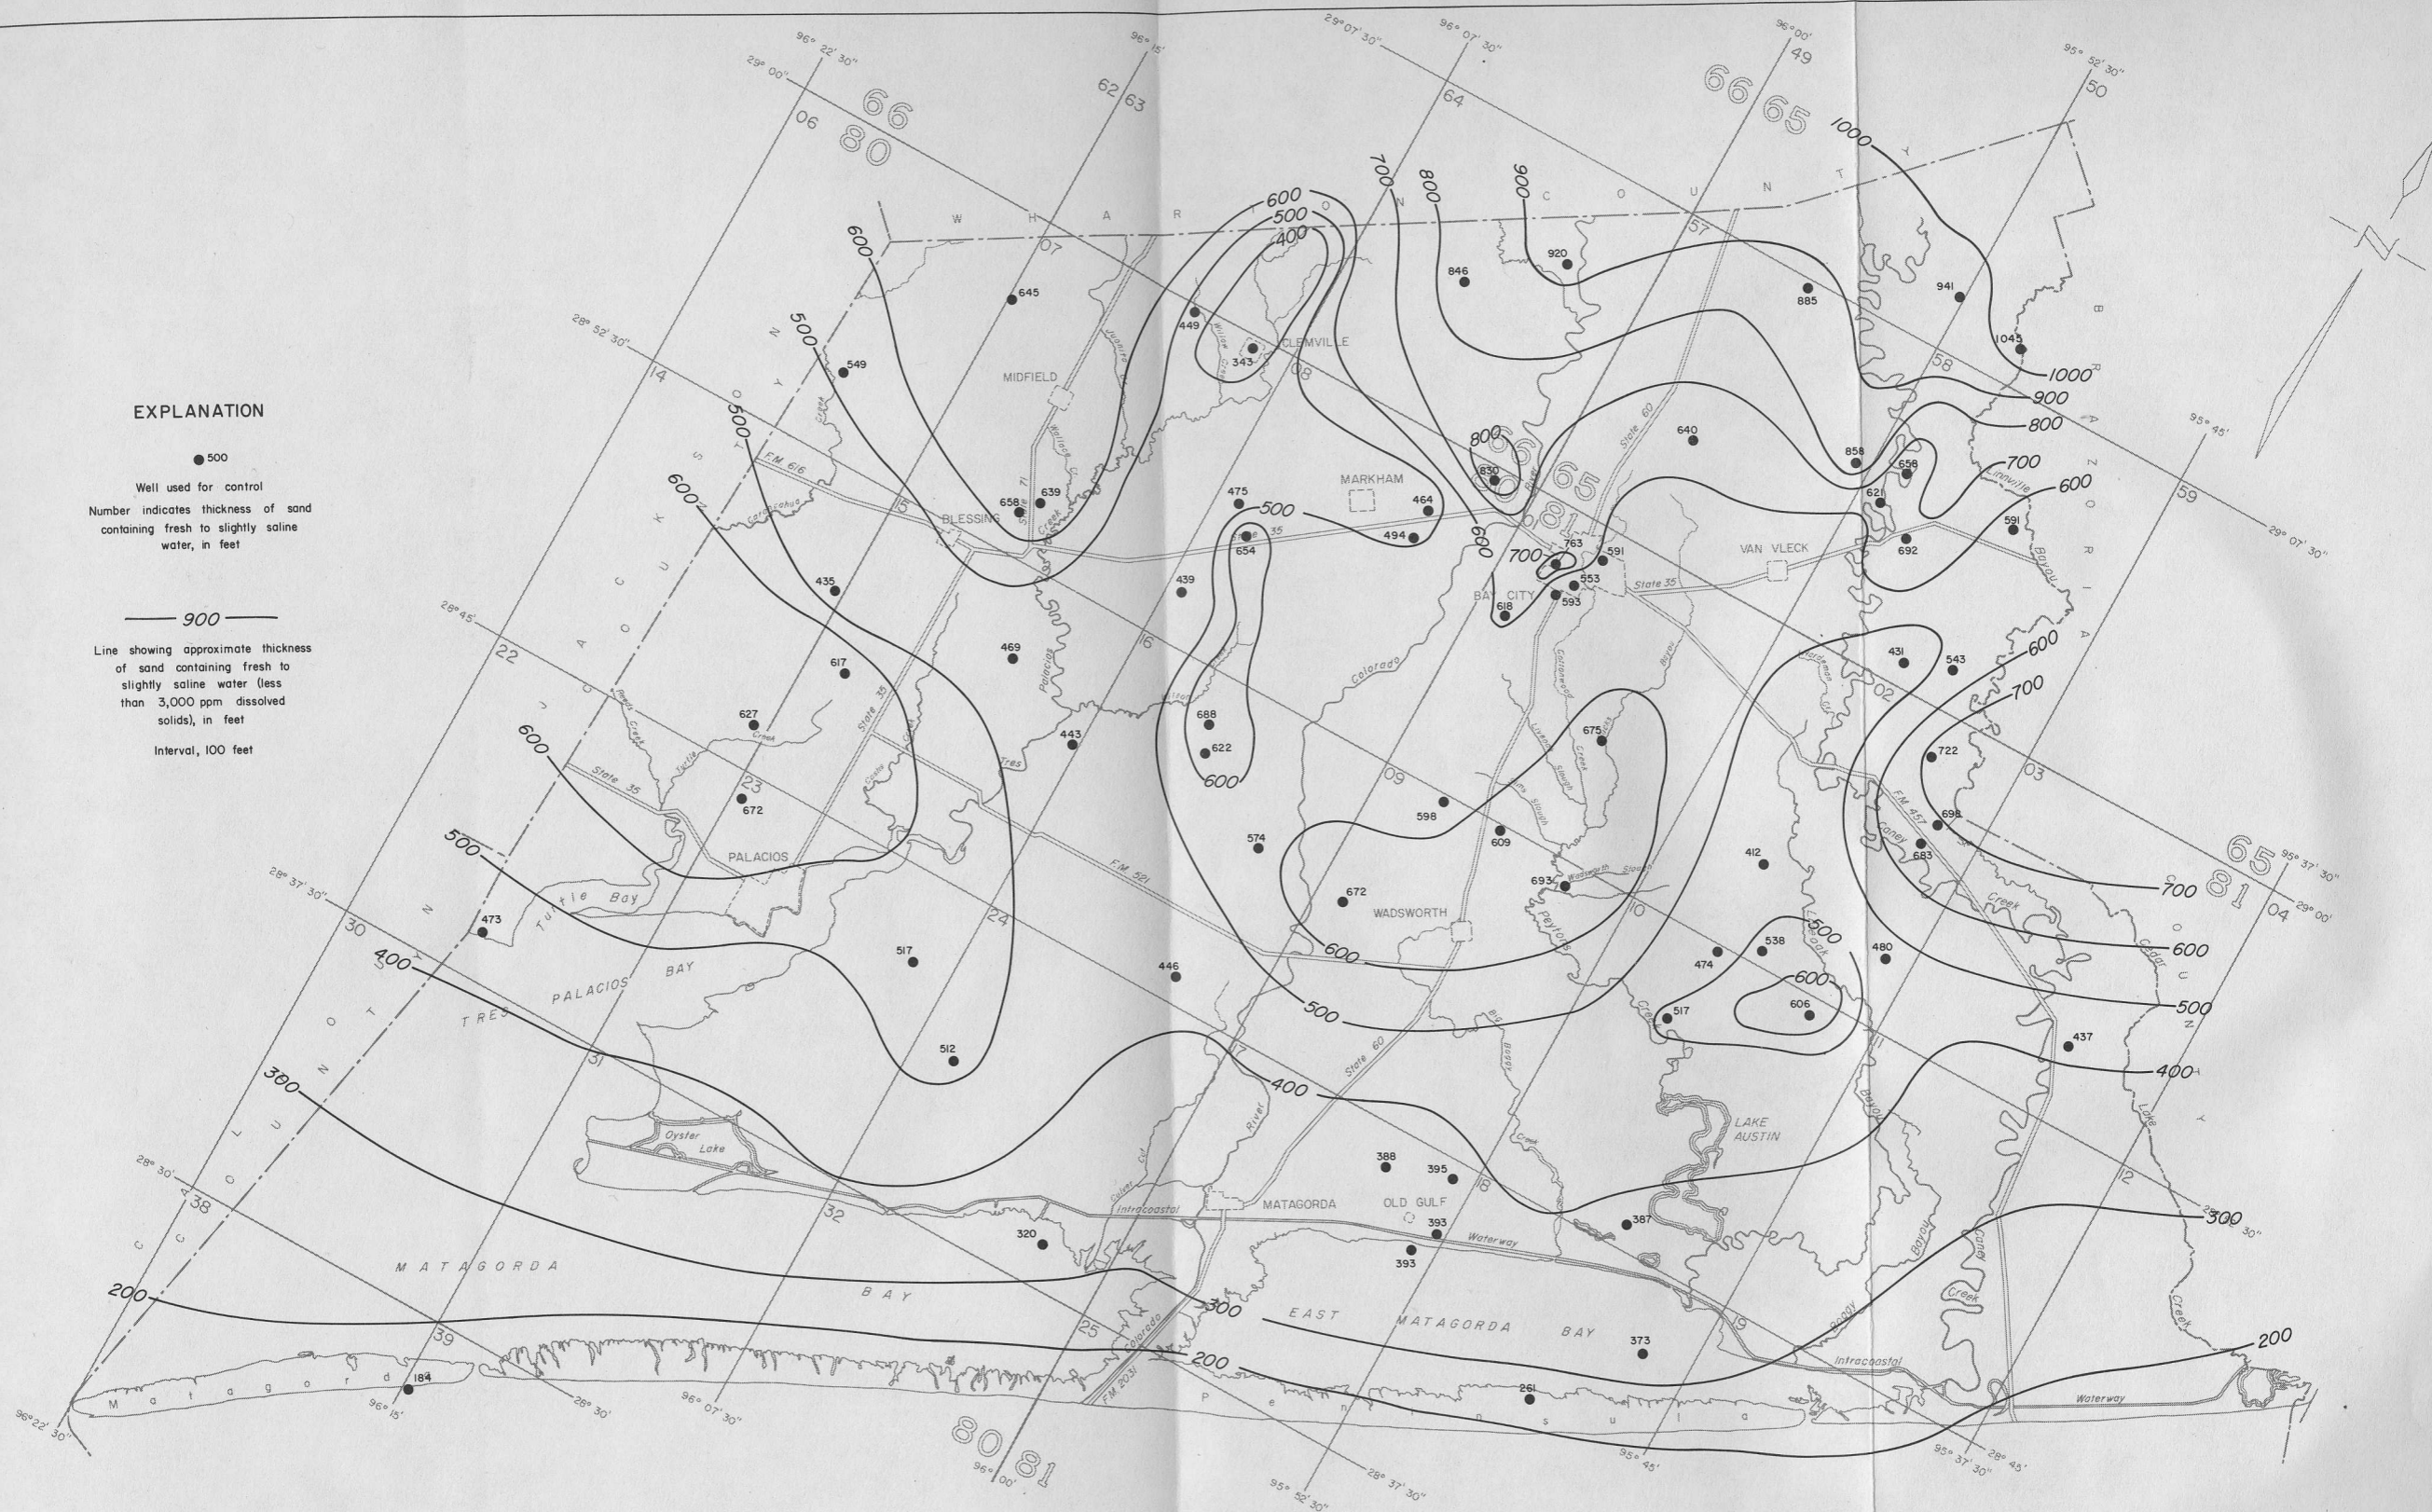

Figure 29  
 Approximate Thickness of Sand Containing Fresh to Slightly Saline Water  
 (Less than 3,000 ppm Dissolved Solids)
